Project: Action all A!

Action all A! was created in 2015 for marking the 10th anniversary of the project "I think globally, I work locally", which is continuously held in Rijeka. The goal of the "Action all A!" project is to enable young people between 14 and 19 to develop the skills needed to actively participate in decision-making at the local level.

The project "Action all A!" Young people between the ages of 14 and 19 will simulate the work of the City Council (from project preparation, debate, voting) in the central event entitled "Action all A!" Only one group of students will win and in the period that follows "Action all A!" and realize their project.

In the project called "Action all A", 70 students attending 13 secondary schools in Rijeka participate actively. The project is implemented by the Delta Association in cooperation with the City of Rijeka with the financial support of the Ministry of Social Policy and Youth. The aim of the project is to enable young high school students to develop the skills needed to actively participate in local decision-making processes and to increase the level of active participation of young people in their local community; to inform Rijeka's high school students about the work of city administration and to encourage them to think about project ideas within a certain topic.

This year, the Delta Association co-operated with the Faculty of Philosophy so students from the Department of Pedagogy will have the role of coordinators during the action and support them during the writing of their proposals.
