

**LEARNING MATERIALS for Vocational Mentors in Creative Work**  
**Unit 3 ENGAGE CREATIVE YOUNG PEOPLE**

**UNIT 3 Title: “Mapping supporting resources for creatives at national level”**

**Partner name: EASP**  
**Macedonia**

**1. Planning session:**

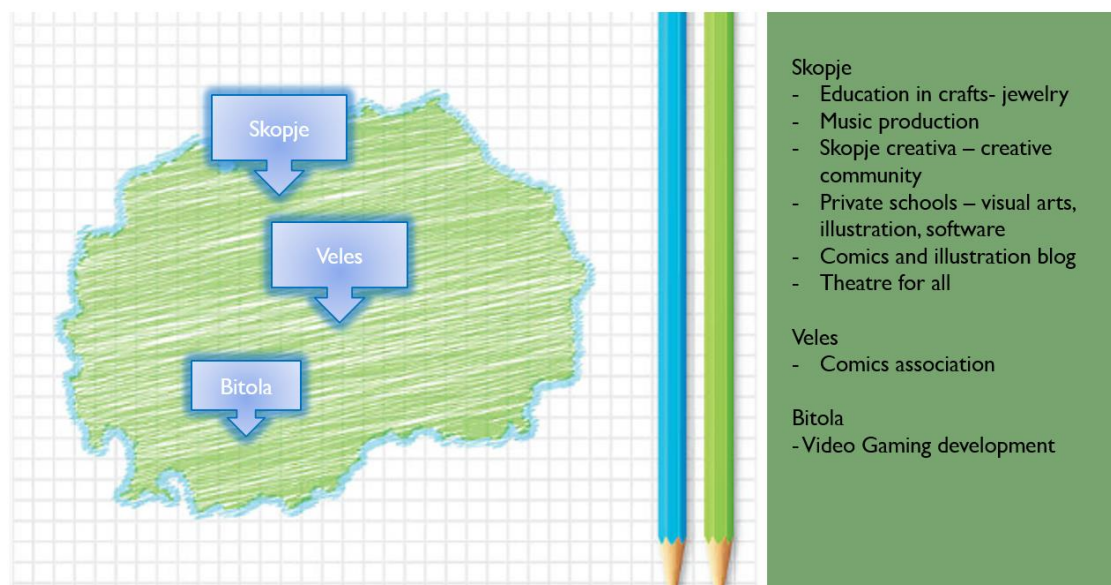

The planning session was organised for the purpose to introduce the set of LO of the part Mentoring in creative and cultural sectors and to set the framework of the Mapping of supporting resources for creatives at national level.

The baseline document for the workshop was the Intellectual output 1, the Situation of the mentoring creative and cultural sector. In addition to the basic information we have set criteria and necessary descriptors part of the available supporting resources for creatives at national level.

**2. Implementation of the “Mapping supporting resources for creatives at national level”**

**Scope and purpose of the Map of supporting resources for creatives**

- To make correlation among the Strategy for cultural and creative industries and identify part of the actual non-formal education providers at national level
- To outline the key elements for a register of necessary data of non-formal education providers and identify in what areas potentially Mentors for creative industries could add and cooperate with those providers:
  - Name, place and contact of the provider
  - Type of education or activity
  - Identify services linked with employers in Cultural and Creatives Industries
  - Potential for cooperation with CCI Mentors according to the 4 service areas

(document 3 Photos EASP Pilot)

Review:

The purpose of the Unit had sustainability value of the TME actions in Macedonia. As the short analysis of the supporting resources for creatives at national level is an input for further project development for the benefit of developing services that can be recognised as services of Mentors for creative industries. This learning workshop was wrapping up of the data of the various associations and interviews we made during the TME project.
